

Annual Summary of Work-Related Injuries and Illnesses

All establishments covered by CCR Title 8 Section 14300 must complete this Annual Summary, even if no work-related injuries or illnesses occurred during the year. Remember to review the Log to verify that the entries are complete and accurate before completing this summary.

Using the Log, count the individual entries you made for each category. Then write the totals below, making sure you've added the entries from every page of the Log. If you had no cases, write "0."

Employees, former employees, and their representatives have the right to review the Cal/OSHA Form 300 in its entirety. They also have limited access to the Cal/OSHA Form 301 or its equivalent. See CCR Title 8 Section 14300.35, in Cal/OSHA's recordkeeping rule, for further details on the access provisions for these forms.

Worksheet to Help You Fill Out the Annual Summary

At the end of the year, Cal/OSHA requires you to enter the average number of employees and the total hours worked by your employees on the Annual Summary. If you don't have these figures, you can use the information on this page to estimate the numbers you will need to enter on the Annual Summary at the end of the year.

How to figure the average number of employees who worked for your establishment during the year:

- 1** Add the total number of employees your establishment paid in all pay periods during the year. Include all employees: full-time, part-time, temporary, seasonal, salaried, and hourly.

The number of employees paid in all pay periods = **1** _____
- 2** Count the number of pay periods your establishment had during the year. Be sure to include any pay periods when you had no employees.

The number of pay periods during the year = **2** _____
- 3** Divide the number of employees by the number of pay periods.

$\frac{\mathbf{1}}{\mathbf{2}} = \mathbf{3}$ _____
- 4** Round the answer to the next highest whole number. Write the rounded number in the blank marked *Annual average number of employees*.

The number rounded = **4** _____

For example, Acme Construction figured its average employment this way:

For pay period...	Acme paid this number of employees...		
1	10	Number of employees paid =	1
2	0		
3	15	Number of pay periods =	2
4	30		
5	40	$\frac{830}{26} =$	3
▼	▼	31.92	
24	20	31.92 rounds to	4
25	15		
26	+10	32 is the annual average	
	830	number of employees	

How to figure the total hours worked by all employees:

Include hours worked by salaried, hourly, part-time and seasonal workers, as well as hours worked by other workers subject to day to day supervision by your establishment (e.g., temporary help services workers).

Do not include vacation, sick leave, holidays, or any other non-work time, even if employees were paid for it. If your establishment keeps records of only the hours paid or if you have employees who are not paid by the hour, please estimate the hours that the employees actually worked.

If this number isn't available, you can use this optional worksheet to estimate it.

Optional Worksheet

- _____ Find the number of full-time employees in your establishment for the year.
- X** _____ Multiply by the number of work hours for a full-time employee in a year.
- _____ This is the number of full-time hours worked.
- +** _____ Add the number of any overtime hours as well as the hours worked by other employees (part-time, temporary, seasonal)
- _____ Round the answer to the next highest whole number. Write the rounded number in the blank marked *Total hours worked by all employees last year*.
